LAHMAR Mohamed Ali

Computer Engineer – Cloud & DevOps

Tunis, Tunisia medalilahmar00@gmail.com +216 92 532 202 LinkedIn GitHub

Profile

Computer engineer (ESPRIT, class of 2026) specialized in **Cloud Computing** and **DevOps/DevSecOps**. Completed 5 successive internships covering CI/CD pipelines, containerization & Kubernetes orchestration, Infrastructure as Code (Ansible, Terraform) and AWS/Azure/OpenStack cloud environments, with solid foundations in cybersecurity, applied AI and full-stack development. Seeking a Cloud/DevOps Engineer position in Tunisia or abroad.

Professional Experience

Mobelite Labs | *Final Year Project Intern – DevSecOps & AI Engineering* – Tunis — Feb – Aug 2026

- Designed and deployed **InvisiThreat**, an AI-driven DevSecOps platform that automatically detects, prioritizes and remediates application vulnerabilities
- Built a multi-project CI/CD pipeline integrating SAST/SCA/DAST (Semgrep, Snyk, OWASP ZAP) with an automated *security gate* – optimized through parallelized scans and caching to speed up security feedback
- Trained a risk scoring model (*stacking* Random Forest/XGBoost/LightGBM, F1 > 87 %, SHAP explainability) exposed through a secured API (FastAPI, JWT/RBAC) and a React/TypeScript dashboard with local LLM assistance; Kubernetes infrastructure (Ansible, Prometheus/Grafana/Loki)

NeoXam | *DevOps Intern* – Tunis — Jul – Aug 2025

- Deployed an XML parsing application with PDF report generation and dashboards on an automated DevOps infrastructure
- Automated infrastructure with Ansible and Docker, with multi-environment orchestration
- Set up CI/CD pipelines (Jenkins) with automated testing and Prometheus/Grafana monitoring

Linedata | *Cloud & Cybersecurity Intern* – Tunis — Jul – Aug 2024

- Developed **CloudGuard**, a SIEM solution to secure AWS environments
- Integrated CloudTrail, CloudWatch, S3, Wazuh and MISP for real-time threat detection

Poste Tunisienne | *Networks & Security Intern* – Bizerte — Jul – Sep 2023

- Administered Cisco networks (routers, switches, firewalls) and optimized performance
- Monitored network traffic and implemented security protocols

Elo One Tech | *Integrated Preparatory Cycle Intern* – Bizerte — Jul – Sep 2022

- First professional immersion: engineering processes, quality management and teamwork methods in a technical team

Key Technical Projects

Full-Stack DevOps Infrastructure – 3-VM architecture with complete CI/CD (Jenkins/SonarQube), multi-node Kubernetes cluster, Prometheus/Grafana monitoring, IaC provisioning via Ansible — DevOps/K8s

CloudGuard – AWS SIEM solution with CloudTrail, Wazuh and MISP for intrusion detection, threat analysis and automated alerts — AWS/SIEM

OpenStack Private Cloud – High-availability deployment with Kubernetes, Ansible IaC, Docker containerization and Prometheus/Grafana monitoring — OpenStack

Nexus Gaming Platform – Full-stack community platform (7 business modules): social posts, polls and live streaming — Spring/Angular

Door-step – Delivery management application with real-time package tracking — Java/Symfony

Technical Skills

Cloud & Infrastructure: AWS, Azure, OpenStack, VPC Configuration
DevOps & Automation: Docker, Kubernetes, Terraform, Ansible, Jenkins, GitLab CI/CD, GitHub Actions
Security & Monitoring: Wazuh, MISP, Prometheus, Grafana, Loki, ELK Stack, SIEM
Development: Python, Java, JavaScript/TypeScript, Spring Boot, Angular, FastAPI, .NET, C/C++
Systems & Networks: Linux/Unix, Windows Server, Cisco (CCNA)

Education

Engineering Degree in Computer Science – ESPRIT, Tunis *(Graduated)* — 2021 – 2026
Specializations: Cloud Computing, DevOps, Full-Stack Development

Baccalaureate, Mathematics Track – Farhat Hached High School, Bizerte — 2021

Certifications | Languages | Soft Skills

Certifications: AWS Academy Cloud Operations, AWS Cloud Security, AWS Cloud Foundations, Cisco CCNA2, Cisco Network Security, Blockchain Fundamentals
Languages: Arabic (Native) | French (C1) | English (B2) | German (A2)
Soft Skills: Leadership, Problem Solving, Adaptability, Technical Communication
